

ZEIZBERG

Carbon made to move.

Carbon
made to
move.

Mobility as part of life.

It's a way forward.

Reizberg develops ultra-lightweight carbon mobility products for people who want to continue their way through life with lightness, confidence and independence.

***Not as something you're given.
But as something you choose.***

We see mobility as an expression of identity, movement, and participation in everyday life. Our products are engineered to support people in continuing their routines, their journeys, and their personal rhythm, with confidence and ease.

By combining advanced carbon fiber construction with refined, understated design, we create mobility solutions that feel modern, lightweight, and seamlessly integrated into daily environments. Reizberg stands for technical precision, durability, and thoughtful engineering. Every product is developed with a clear focus: to provide reliable performance while maintaining dignity, clarity, and simplicity in design.

Carbon made to move.

Easier.

Carbon makes the difference.

Carbon fiber is more than a technical material. It changes how mobility feels in everyday life: lighter to handle, easier to transport and more natural to integrate into daily routines.

Effortless handling

A lightweight carbon construction reduces strain when lifting, folding and moving through everyday life.

Built for real life

Compact, foldable and travel-friendly – designed to fit into cars, homes, routines and daily environments.

Designed with intention

Clean, reduced and modern. Reizberg products are made to feel like part of your identity.

REIZBERG

Developed with expertise. *Manufactured with precision.*

Reizberg products are developed in close collaboration with an experienced manufacturing partner specialized in carbon mobility solutions.

This partnership combines advanced carbon production expertise with Reizberg's design direction, European market focus and defined quality standards.

All products follow structured production and quality control processes designed to support reliable performance, consistent product quality and long-term technical availability.

Carbon expertise
Advanced carbon fiber construction for lightweight and stable mobility products.

Structured production
Defined processes from material preparation to assembly.

Quality control
Attention to safety, usability and reliable everyday performance.

Long-term support
Focus on serviceability, spare parts availability and technical support.

The Reizberg Range. *In Overview.*

RX1
Every day Carbon Walker

The RX1 is built for comfortable daily mobility, easy handling and refined everyday functionality. With a full carbon frame, compact folding system & integrated seat, it is designed to support daily movement with stability, lightness and clarity.

RX3
Lightweight Carbon Electric Wheelchair

The RX3 is the lightest electric chair in the Reizberg range, built in full carbon fiber for effortless handling and everyday independence. Compact, foldable and travel-friendly, designed for easy everyday mobility.

RX7
Performance Carbon Electric Wheelchair

The RX7 is built for extended range, enhanced performance and confident everyday movement. With a foldable carbon frame, and dual battery concept, it is designed for longer days, greater comfort and reliable mobility in daily life.

RX1.

In Detail.

The RX1 is built as a lightweight walking support for comfortable daily mobility, easy handling and refined everyday functionality. Its carbon construction brings stability and clarity to everyday routines. At home, outdoors and on the go.

Foldable frame. Adjustable handle height. **Integrated seat.** Storage bag. **PU wheels.** Stable carbon frame.

Main Parameter

Material:	Carbon fiber	Seat height:	220 mm
Max loading:	100 kg	Seat depth:	600 mm
Weight:	5.5 kg	Seat width:	450 mm
Size (folded):	670 × 230 × 810 mm	Overall length:	670 mm
Front wheel:	8" PU Wheels	Overall width:	590 mm
Rear wheel:	8" PU Wheels	Overall height:	850-970 mm

RX3.

In Detail.

The RX3 is the lightest power chair in the Reizberg portfolio, engineered with a full carbon fiber frame for effortless handling and everyday independence. Its compact folding design, lightweight construction, and efficient dual motor system make it an ideal mobility solution for modern, active users.

Full carbon fiber frame. **Compact folding system.** Dual 150W brushless motors. **Lithium battery 24V / 10Ah.** Electromagnetic braking system. **Joystick controller.** Lightweight travel-friendly design.

Main Parameter

Material:	Carbon fiber	Seat height:	450 mm
Max loading:	120 kg	Seat depth:	400 mm
N.W. (without Battery):	11.6 kg	Seat width:	460 mm
Size (folded):	730 × 250 × 700 mm	Overall length:	920 mm
Front wheel:	7" PU Wheels	Overall width:	620 mm
Rear wheel:	11" PU Wheels	Overall height:	870 mm
Motor power:	2 × 150 W	Battery:	24 V, 10 Ah
Range:	up to 12 km	Max. speed:	6 km/h

RX7.

In Detail.

The RX7 is Reizberg’s advanced performance power chair, designed for greater range, enhanced stability, and confident everyday mobility.

Full carbon fiber frame. **Dual high-performance motor drive.** Dual battery mobility concept. **Electromagnetic braking system.** Precision joystick control. **Performance-oriented stability geometry.**

Main Parameter

Material:	Carbon fiber	Seat height:	450 mm
Max loading:	136 kg	Seat depth:	430 mm
N.W. (without Battery):	15.8 kg	Seat width:	450 mm
Size (folded):	610 × 340 × 760 mm	Overall length:	970 mm
Front wheel:	7" PU Wheels	Overall width:	610 mm
Rear wheel:	11" PU Wheels	Overall height:	930 mm
Motor power:	2 × 250 W	Battery:	2 × 24 V, 10 Ah
Range:	up to 30 km	Max. speed:	6 km/h

TRAVEL
INFORMATION
SHEET

Built for distribution.

Easy to present. Simple to start.

Reizberg offers selected distribution partners a clearly positioned range of lightweight carbon mobility products – designed for everyday life, travel and modern customer expectations.

Our portfolio is easy to present: three models, three user profiles and one consistent brand identity.

Clear product range

RX1, RX3 and RX7 cover different mobility needs: walking support, lightweight electric mobility and extended range.

Flexible start

Partners can start with selected models or individual units. No minimum order quantity.

Stock in Spain

Orders are shipped from our warehouse in Madrid, supporting short delivery routes within Spain and Europe.

Marketing support

Product images, brochures, technical data and brand material are provided for a professional presentation.

Training & documentation

Product information, sales material and documentation are available in Spanish, English and German.

Service support

Reizberg supports partners with technical clarification, spare parts and structured after-sales processes.

Notes.

This image shows a full page of white paper with horizontal dotted lines. The lines are evenly spaced and run across the width of the page, providing a guide for handwriting or typing. There are no margins, text, or other markings on the page.This image shows a full page of a document template. It consists of approximately 20 evenly spaced horizontal dotted lines across the entire width of the page, providing a guide for handwriting or typing. The background is plain white, and there are no margins, headers, or footers visible.
